

## uQualio® Storyboard

We have shown only 3 video topics in the below template, but you will probably most often add more. Please keep in mind not to have too many video topics. It is often better to make an additional course if you need more than 8 videos to explain something. We recommend 3 answers to each question, but you can add as many as you like (note that mobile layout only fits 5 questions).

On uQualio® you can also add other files than video to provide more detailed information. These files can be added to each topic and to the course.
